\*per "ANSI/AAMI-ST 79:2006" and "AAMI-ST 35; 2003 - 9.2 Quality Process"

Answering all your  
needs through  
the entire SPD cycle

#### **Pretreatment:**

##### **Enzy-Foam Spray Enzymatic Pretreatment**

Instantly begins to breakdown bioburden, blood and fats. Best for use as a pre-treatment or in transport from surgery.

#### **Instrument Cleaning:**

*Safe, Effective, Biodegradable,  
Organic*

##### **Pro-Zyme & Super Pro-Zyme Low Foam Enzymatic Cleaner**

The first ultra low foaming detergent that cleans the hard to reach places even in cold water. Best for all brands of automatic washers. Available in regular and concentrated form.

##### **Bio-Zyme Enzymatic Cleaner**

Enzymatic detergent perfect for getting into crevices of endoscopes. Best for ultrasonic washers, tunnel washers, or presoaks.

##### **Pro-Clean Mild Alkaline Detergent**

Cleans and protects instruments, especially stainless steel. Maintains instrument surface - prevents scale build up and allows for complete rinse. Formulated for all brands of washers. Can be used as a pre-soak.

#### **Restore & Prolong Life of Instruments:**

##### **Restore Sheen Rust & Stain Remover**

A powerful stain and rust remover coupled with corrosion inhibitors to recondition and provide lasting protection to stainless steel and surgical instruments.

##### **Instra-Ease Milk Lubricant**

Gentle formula lubricates moving parts and hinges while helping to prevent corrosion. Leaves protective film to prolong instrument life. Also available in concentrated form.

#### **Additional Products:**

##### **Chief's Secret High Powered Cleaner & Degreaser**

Rapidly removes heavy wax build up, grease, oil and heavy dirt. Effective on multiple surfaces and stains. Concentrated formula.

##### **ConQuest Container Rack System**

Offers concentrated cleaning performance in an easy to lift, safer to dispense design. Eliminates floor clutter.
